LIQUID LAUNDRY DETERGENT

AQUAMIX 9

USES: General purpose laundry detergent, low foaming.

AQUAMIX 9 is a highly concentrated liquid detergent which has excellent results when heavy duty washing is required. A low foaming product with a fresh eucalyptus fragrance, AQUAMIX 9 is suitable for use in top or front loading washing machines.

CODE: AQ9	SIZE: 5L		
Medium duty	COLOUR: Green/Blue		DILUTION: 2→8ml/Litre

NEUTRAL FLOOR CLEANER

AQUAMIX 10

USES: Low foaming neutral floor cleaner as well as spray and wipe.

AQUAMIX 10 is a neutral pH low foam floor cleaner designed for mopping or use in automatic floor scrubbers. It can also be used as a spray and wipe. Ideal for use on sensitive surfaces that you don't want to strip or etch but need to clean.

CODE: AQ10	SIZE: 5L		
Medium duty	COLOUR: Dark Grey		DILUTION: 10→100ml/Litre

Fluid Chemicals NZ has been manufacturing and wholesaling hygiene products and industrial chemical solutions direct to end users for over 25 years. We are proudly New Zealand owned since 1999, and in operation since 1985, and we pride ourselves on being a flexible and competitive supplier of quality products.

We supply a wide range of businesses in the hospitality industry from café's and restaurants, to hotels, rest homes and schools. Fluid Chemicals NZ's Institutional Range offers cost effective high technology solutions and partnership programs to the following markets:-

- Food Service Hygiene
- Property Hygiene
- Industrial & Commercial Laundry

Complete product ranges are available for all key Institutional Market segments.

We manufacture all of our products at our factory in Airport Oaks, Mangere which helps ensure flexibility and short turnarounds where ever possible. Our network of distributors around the country means Food and Institutional business customers are guaranteed prompt knowledgeable service, locally, when they need it. We believe in supporting NZ products and services as a NZ owned and operated business helps keep kiwis working.

WHY USE THE MEASUREPACK SYSTEM?

With colour coded products and easy to follow wall charts, the measurepack system makes it easy for your staff to identify the right products for the right application.

- All products MPI Approved
- Ease of use minimizes cost and OSH implications
- Concentrated product reduces freight costs
- Numbered as well as colour coded
- 10 product range meets most needs
- No moving parts means it works every time
- Ease of use minimises cost
- Safe chemical use also minimises OSH implications

The entire Supermix range is MPI approved and suitable for use in food processing. The Aquamix range contains perfumes and are therefore more suitable for hotels, schools and rest homes.

Purchasers and users of Fluid Chemicals Products have the sole responsibility for determining the fitness and suitability of Fluid Chemicals products for the applications for which they are used.
